Revision date : Print date : Silicone Priming Paint 917 Silicon-Grundierfarbe 917 13.05.2024 13.05.2024

Version (Revision) :

18.0.0 (17.0.0)

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

#### 1.1 Product identifier

Silicone Priming Paint 917 Silicon-Grundierfarbe 917

1.2 Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses

#### Products Category [PC]

PC 9 - Coatings and paints, fillers, putties, thinners.

#### Uses advised against

There are no information about relevant identified uses of the product according to the Regulation (EC) No. 1907/2006 (REACH-Regulation), which are advised against. For using the product observe the information in the Technical data sheet of the product.

## **1.3** Details of the supplier of the safety data sheet

#### Supplier

Brillux GmbH & Co KG www.brillux.de

**Street :** Weseler Straße 401

Postal code/City: D - 48163 Münster

**Telephone :** +49 (0)251-7188-0

**Telefax :** +49 (0)251-7188-280

#### **Information contact :**

Electronic mail address of the well-informed person for safety data sheets:sdb@brillux.de

## **1.4 Emergency telephone number**

Outside the business hours (9 a.m. to 5 p.m.): (Giftinformationszentrum-Nord, Göttingen, consultation in german or english language) Telephone: +49 (0)551-19240.

## **SECTION 2: Hazards identification**

# 2.1 **Classification of the substance or mixture**

# Classification according to Regulation (EC) No 1272/2008 [CLP]

#### **Additional information**

This product is not dangerous according to the regulation (EC) No. 1272/2008 (CLP).

## 2.2 Label elements

## Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Special rules for supplemental label elements for certain mixtures

EUH208 Contains 1,2-BENZISOTHIAZOL-3(2H)-ONE.May produce an allergic reaction.

EUH210 Safety data sheet available on request.

## 2.3 Other hazards

The product does not contain any substances with endocrine-disrupting properties according to Article 59 Paragraph 1 or substances with endocrine-disrupting properties according to Regulations (EU) 2017/2100 or (EU) 2018/605. The product does not contain any substances, which fulfil the criteria for PBT or vPvB in accordance with the Annex XIII of the Regulation (EC) No 1907/2006 (REACH-Regulation).

## **SECTION 3: Composition/information on ingredients**

Page : 1 / 13

Trade name :

Revision date : Print date : Silicone Priming Paint 917 Silicon-Grundierfarbe 917 13.05.2024 13.05.2024

Version (Revision) :

## 3.2 Mixtures

Description

Silicon primer.

Styrene-acrylic-copolymer-dispersion, emulsion of silicone resins, titanium dioxide (depending on the shade), inorganic/organic coloured pigments (depending on the shade), calcium carbonate, water, glycol ethers, white spirit, additives and preservatives (benzisothiazolinone and pyrithione zinc).

#### **Hazardous ingredients**

| 2-(2-BUTOXYETHOXY)ETHA | OL ; REACH No. : 01-2119475104-44 ; EC No. : 203-961-6; CAS No. : 112-34-5 |

# Specific Conc. Limits :

Additional information

The used hydrocarbons contain no benzene or benzene in concentrations less than 0.1 percent by weight and fulfil therefore the default(handicap) of the remark P to the appendix VI of the order (EC) No. 1272/2008 (GHS order). For full text of Hazard- and EU Hazard-statements: see SECTION 16.

## **SECTION 4: First aid measures**

## 4.1 Description of first aid measures

#### **General information**

In all cases of doubt, or when symptoms persist, seek medical attention. Immediately remove all contaminated clothing. If unconscious no administration by mouth, storage in recovery position and seek medical advice. If medical advice is needed, have product container or label at hand.

#### **Following inhalation**

When symptoms persists, take the casualty into the fresh air and keep warm. Irregular breathing/no breathing: artificial respiration.

#### In case of skin contact

Take off immediately all contaminated clothes. Wash away with soap and water and rinse. Do NOT use solvents or thinners. If skin irritation continues, consult a doctor.

#### After eye contact

Remove contact lenses, keep eyelids open. Rinse open eye immediately with plenty of running water. Seek medical adivce if complaint continues.

#### Following ingestion

Drink water in small draught. Keep at rest. Do not induce vomiting. When swallowed immediately consult and show packing or label to physician.

# 4.2 Most important symptoms and effects, both acute and delayed

- Allergic symptoms.
- **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

## **SECTION 5: Firefighting measures**

## 5.1 Extinguishing media

Suitable extinguishing media

This product is not flammable. In case of a fire extingnish surroundings as indicated.

Unsuitable extinguishing media

Trade name :

Revision date : Print date : Silicone Priming Paint 917 Silicon-Grundierfarbe 917 13.05.2024 13.05.2024

Version (Revision) :

18.0.0 (17.0.0)

None known.

# 5.2 Special hazards arising from the substance or mixture Hazardous combustion products

Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard.

## 5.3 Advice for firefighters

## Special protective equipment for firefighters

When extinguishing fires, use breathing apparatus with an independent source of air.

## 5.4 Additional information

Cool endangered containers with water in case of fire. Do not allow run-off from fire-fighting to enter drains or water courses.

#### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Refer to protective measures listed in sections 7 and 8. The product produced in combination with water slippery surfaces.

#### 6.2 Environmental precautions

Do not empty into drains. If the product contaminates lakes, rivers or sewages, inform appropriate authorities in accordance with local regulations. Holding polluted washing water back and disposing of duly.

## 6.3 Methods and material for containment and cleaning up

#### For cleaning up

Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13). Remove residue by rinsing thoroughly with water. Thoroughly clean contaminated objects and floors and observe environmental regulations.

## 6.4 Reference to other sections

See Section 7 for information on safe handling. You find information about the safety equipment of persons in the section 8, information about the refuse disposal in section 13.

## **SECTION 7: Handling and storage**

## 7.1 Precautions for safe handling

## **Protective measures**

No special measures necessary in the case of regulation storage and handling. Ensure a good ventilation in room and working area. For personal protection see Section 8. Keep out of reach of children. Read label before use.

#### Measures to prevent fire

This product is not flammable. Cool endangered containers with water.

#### Advices on general occupational hygiene

While working do not eat , drink or smoke. Wash hands and face before breaks and after work and take a shower if necessary. Immediately remove all contaminated clothing.

## 7.2 Conditions for safe storage, including any incompatibilities

## Requirements for storage rooms and vessels

Keep container tightly in a dry, cool and good ventilated place. Do not store the product in lounge room. Keep only in the original container. Protect against frost. Keep out of the reach of children.

## Hints on joint storage

Store away from foodstuffs.

Storage class (TRGS 510): 12

#### Further information on storage conditions

Keep container tightly sealed. Store at 5°-35°C. Containers should be kept dry and sealed.

|     |                           |                                      |

## Appropriate engineering controls

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL (=Occupational Exposure Limit), suitable respiratory protection must be worn. Observe data available of section 7.

## **Personal protection equipment**

## Eye/face protection

Use protection glasses in case of spattering.

Trade name :

## **Skin protection**

## Hand protection

At use as agreed a protective gloves from nitrile rubber, tested according to EN 374, with a material thickness 0,38 mm has to be used. Notes of the manufacturer have to be taken into account. Penetration time of the glove material: > = 8 h.

By longer or repeated contact the penetration times can be considerably shorter. The protective gloves should replaced after the first wear out or a damage of the gloves. Gloves of cotton should be used under the gloves of polychloropren or nitrile rubber. After washing hands replace lost skin fat by fat containing skin creams.

# Body protection

Using protective clothing.

## **Respiratory protection**

Breathing protection equipment is not required in good ventilated places. Do not inhale the vapour.

#### **General information**

Avoid contact with eyes and skin. Immediately remove all contaminated clothing. Do not eat or drink during work - no smoking. Wash hands before breaks and after work. Ensure a good ventilation in room and working area. Do not breathe vapour.

#### **Environmental exposure controls**

The product should not reach waters and the ground. If the product contaminates lakes, rivers or sewages, inform appropriate authorities in accordance with local regulations.

## **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

#### Appearance

Physical state : Liquid.

Colour : conformable to product designation.

#### Odour

Characteristic.

## 9.2 Other information

Other physical and chemical data have not been determined.

Trade name :

**Revision date :** Print date :

Silicone Priming Paint 917 Silicon-Grundierfarbe 917 13.05.2024 13.05.2024

Version (Revision) :

18.0.0 (17.0.0)

## SECTION 10: Stability and reactivity

#### 10.1 Reactivity

No dangers connected by a possible reactivity of the product are known to proper handling and storage.

#### 10.2 Chemical stability

Stable under recommended storage and handling conditions (see section 7).

## **10.3 Possibility of hazardous reactions**

No dangerous reactions are known if stored and handled the product correctly.

#### 10.4 Conditions to avoid

Keep away from frost, heat and direct sunlight.

#### 10.5 Incompatible materials

No dangerous reaction known. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

#### 10.6 Hazardous decomposition products

No dangerous decomposition product are known if stored and handled correctly. When exposed to high temperatures or in case of fire hazardous decomposition products such as carbon monoxide and dioxide, smoke, oxides of nitrogen, may produced.

#### **SECTION 11: Toxicological information**

## 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Acute toxicity: - Acute oral toxicity: No data available; - Acute dermal toxicity: No data available; - Acute inhalation toxicity: No data available. Acute oral toxicity Parameter : ATEmix calculated Exposure route : Oral Effective dose : not relevant LD50 ( 2-(2-BUTOXYETHOXY)ETHANOL ; CAS No. : 112-34-5 ) Parameter : Exposure route : Oral Species : Rat Effective dose : > 2000 mg/kg LD50 (1,2-BENZISOTHIAZOL-3(2H)-ONE; CAS No.: 2634-33-5) Parameter : Oral Exposure route : Species : Rat Effective dose : 597 mg/kg Acute dermal toxicity ATEmix calculated Parameter : Dermal Exposure route : Effective dose : not relevant LD50 ( 2-(2-BUTOXYETHOXY)ETHANOL ; CAS No. : 112-34-5 ) Parameter : Exposure route : Dermal Rabbit Species : Effective dose : > 2000 mg/kg LD50 (1,2-BENZISOTHIAZOL-3(2H)-ONE; CAS No.: 2634-33-5) Parameter : Exposure route : Dermal Rat Species : Effective dose : > 2000 mg/kg

Acute inhalation toxicity

| Effective dose : | not relevant        |
| - ·              |                     |

## Corrosion

- To the skin: Not expecting any damage or irritancy.

- At the eye: Not expecting any damage or irritancy.

### **Respiratory or skin sensitisation**

The product contains sensitizing substances, which may produce an allergic reaction (see section 2 and 3).

| Skin | sensitisation |
|------|---------------|
| Para | meter ·       |

Species :

Result : Method : Skin sensitisation ( 1,2-BENZISOTHIAZOL-3(2H)-ONE ; CAS No. : 2634-33-5 ) Mouse Sensitising. OECD 429

## CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

The product is not classified as human germ cell mutagenic, carcinogenic or human reproductive toxic (CMR effects).

#### STOT-single exposure

No risk expected.

## STOT-repeated exposure

No risk expected.

#### Aspiration hazard

The product contains substances, which are classified as apiration toxicity, category 1 (May be fatal if swallowed and enters airways), in accordance to the Regulation (EC) No. 1272/2008 (CLP-Regulation) in there pure form. Based on available data the classification criteria according to Regulation (EC) No 1272/2008 [CLP] are not fulfilled.

#### 11.2 Information on other hazards

#### **Endocrine disrupting properties**

The product does not contain any substances with endocrine-disrupting properties according to Article 59 Paragraph 1 or substances with endocrine-disrupting properties according to Regulations (EU) 2017/2100 or (EU) 2018/605.

#### **Other adverse effects**

This product is unlikely to harm health, given normal and proper handling and hygenic precautions.

## **Additional information**

The product is classified in toxicological terms on the basis of the results of the calculation procedure outlined within the Regulation (EC) No 1272/2008 (CLP-Regualtion), listed in sections 2 and 3.

At proper dealing and use as agreed the product does not cause any effects bad for health after our experiences and the information submitted to us.

## **SECTION 12: Ecological information**

## 12.1 Toxicity

#### **Aquatic toxicity**

| Acute (short-term) fish toxicity |   |

# Adsorption

Parameter : Effective dose : Evaluation : Method : Log KOW ( 1,2-BENZISOTHIAZOL-3(2H)-ONE ; CAS No. : 2634-33-5 ) 0,7 HPLC method OECD 117

## 12.5 Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

## 12.6 Endocrine disrupting properties

The product does not contain any substances with endocrine-disrupting properties according to Article 59 Paragraph 1 or substances with endocrine-disrupting properties according to Regulations (EU) 2017/2100 or (EU) 2018/605.

## 12.7 Other adverse effects

Acute or chronic damages to water organisms by the product in the aquatic environment are not expecting.

## 12.8 Additional ecotoxicological information

Avoid exposing into ground, waterways and drainage.

The classification of the product is based on summation of classified components according to the Regulation (EC) No 1272/2008 (CLP-Regulation). See details in sections 2 and 3.

## **SECTION 13: Disposal considerations**

## 13.1 Waste treatment methods

## Directive 2008/98/EC (Waste Framework Directive)

#### Before intended use

Dispose of contents/container to approved disposal company or local collection according to the local regulations. Packaging with not dry uped residues have to droped at official collecting sites. Packaging with dry uped residues can be disposed together with household garbage or building site garbage. Do not empty into waters or drains.

#### Waste codes/waste designations according to EWC/AVV

For the product:

Disposal-definition No.: 08 01 12 - Paint and varnish waste with the exception of the ones who come under 08 01 11 \*.

#### After intended use

Only empty packaging can be transfered to recycling. Uncleaned packaging must be disposed of in the same manner as the medium.

## **SECTION 14: Transport information**

#### 14.1 UN number

No dangerous good in sense of these transport regulations.

#### 14.2 UN proper shipping name

No dangerous good in sense of these transport regulations.

## 14.3 Transport hazard class(es)

No dangerous good in sense of these transport regulations.

#### 14.4 Packing group

No dangerous good in sense of these transport regulations.

## 14.5 Environmental hazards

No dangerous good in sense of these transport regulations.

## 14.6 Special precautions for user

None

## 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not relevant because the product in type of delivery does not transport in bulks according to the Internationa Maritime Organization (IMO) instruments.

## **SECTION 15: Regulatory information**

# <sup>15.1</sup> Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU legislation

#### Authorisations and/or restrictions on use

**Restrictions on use** 

## Regulation (EC) No. 1907/2006 (REACH), Annex XVII (restrictions):

Use restriction according to REACH annex XVII, no.: 55, 75

#### Other regulations (EU)

#### Directive 2004/42/EC on the limitation of emissions of volatile organic compounds

Product sub-category and VOC limiting values in accordance with appendix II, letter A of the guideline: Category c, type Wb;

VOC limiting value of the category for 2010: 40 g/l. This product contains max. 40 g/l VOC.

## National regulations

Water hazard class

Classification according to AwSV - Class : 1 (Slightly hazardous to water)

#### Additional information

The product is classified as a solid substance according to the criteria of the Penetrometer test (ADR, part 2, section 2.3.4) and also fulfils the criteria for solid substances according to the TRwS 779 number 2.1.1. Maternity regulations and Young Persons Employment Act are to take into account.

#### **15.2 Chemical Safety Assessment**

A chemical safety assessments was not carried out.

#### **SECTION 16: Other information**

#### 16.1 Indication of changes

02. Label elements · 02. Special rules for supplemental label elements for certain mixtures · 15. Water hazard class

## **16.2** Abbreviations and acronyms

ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways (Accord européen relatif au transport international des marchandises dangereuses par voies de navigation intérieures) ADR: European agreement concerning the international carriage of dangerous goods by road (Accord européen relatif transport des merchandises dangereuses par route)

AGW: Occupational threshold limit value (Arbeitsplatzgrenzwert – Germany) AOX: Adsorbable Organic halogen compounds

Information of our suppliers GISBAU (Hazardous materials information system of the German professional associations of the building and construction industry)

# <sup>16.4</sup> Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]

The evaluation of hazard information of the product was carried out in accordance to Annex I of the REGULATION (EC) No 1272/2008 (CLP Regulation).

## 16.5 Relevant H- and EUH-phrases (Number and full text)

- H302 Harmful if swallowed.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H330 Fatal if inhaled.
- H400 Very toxic to aquatic life.
- H411 Toxic to aquatic life with long lasting effects.
